MINERAL BASE OF THE CZECH REPUBLIC AND ITS DEVELOPMENT IN 2011	27
1. Legal framework for mineral resource use	27
1.1. Reserved and non-reserved minerals and their deposits	27
1.2. Planning, approval and carrying out of mineral prospecting and exploration	27
1.2.1. Reserved minerals	27
1.2.2. Non-reserved minerals (and their mining)	28
1.3. Permit to mine a prospected and explored deposit	28
1.4. Royalties on reserved minerals mined	29
1.5. Reserves for mining damages and remediation during the mining of reserved minerals	29
2. Selected statistical data on exploration and mining on the territory of the Czech Republic	30
3. Significance of mining in the Czech economy	30
4. Trends of reserves of minerals (economic explored disposable reserves)	31
5. Summary of exploration licences valid in 2011 and newly issued in 2011 (listed according to minerals) – prospecting and exploration works financed by companies	31
6. State-funded geological projects	32
6.1. Economic geology projects	32
6.2. Other geological projects	33
7. Summary of selected legal regulations on mineral prospecting and exploration in force as of June 30, 2012	33
7.1. Acts	33
7.2. Other legal regulations	34
7.2.1. Mineral deposits exploitation	34
7.2.2. Geological work	34

Introduction	68
1. Use of funds from a financial reserve generated by mining companies for remediation, reclamation and mining damages	68
Generated and drawn reserves for remediation and reclamation	69
Financial reserve for mining damages	70
Generated and drawn reserves for mining damages	70
2. Use of funds from annual royalties paid by mining companies on mining leases and on extracted reserved minerals pursuant to the Mining Act	71
Royalties from mining lease areas paid out to municipalities pursuant to article 32a) sect. 1 of the Mining Act	71
Royalties on extracted reserved minerals	72

Distribution of royalties on extracted reserved minerals pursuant to sect. 32a) par. 4 of the Mining Act	73
3. Phase-out of mining activities and erasing consequences of coal, ore and uranium mining funded by the state	74
Additional funds for eliminating the impacts of mining	74
Use of state budget subsidies for the phase-out of mining and to erase consequences of mining and mandatory social health expenses	75
4. Use of proceeds from privatisation of state assets in eliminating old ecological burdens caused by mining prior to privatisation of mining companies	77
Overview of entities with which “ecological contracts” were entered into, including guaranteed financial sums and their actual amount drawn – as of 30. 9. 2012	77
5. A programme dealing with ecological damage caused prior to privatisation of brown coal mining companies in the Ústí nad Labem Region and the Karlovy Vary Region, termination of mining in the Moravian-Silesian Region, caused by the exploration for and extraction of crude oil and natural gas in the South Moravian Region, and caused by the termination of coal mining in the Kladno region.	78
